

Embassy of the Islamic Republic of IRAN

Dar es Salaam

IN THE NAME OF GOD

Internationally Protected Persons, including Diplomatic Agents 1973, and the United Nation Charter as well, so that the UN Security Council as the main UN body which is responsible for maintaining International peace and security, expected to confront such evident violation of international regulations, but regrettably UNSC has failed to involve its duty in a right, fair, unbiased and undiscriminating manner. Consequently, there was no other choice rather than the resort to the inherent of SELF DEFENSE as articulated in Article 51 of the UN Charter, aimed at defending our people's lives, national security and sovereignty.

As eloquently scrutinized by the esteemed representative of the United Republic of Tanzania to the United Nations, at the UN Security Council briefing on the situation on the Middle East: "On April 1, Iran's Diplomatic premises in Syria were attacked by airstrikes, resulting in loss of Several Iranian Personnel and severe destruction to the Premises. This is a grave violation on the UN Charter and International law and a **breach of the sovereignty of both Syria and Iran**. The attack is of an extremely vicious nature We have also noted that Iran stated that its military action was in response to Israel's aggression against its diplomatic premises and **the matter can be deemed concluded.**"

Finally, it worth reiterating that in contradiction to the occupying regime's aggressive and genocidal pattern which trends to escalate and exacerbate tensions in the region aiming to threaten the International peace and security by expanding the scope of the war far beyond the occupied Palestinian territories, the Islamic Republic of Iran is committed to the UN Charter and will not hesitate to continue its constructive role for the stabilizing peace and stability in the region.
